SUMMARY

UX Designer based in Iloilo City. I create simple and clear interfaces that help users complete tasks efficiently. Currently a student at Western Institute of Technology, working on UX projects that focus on usability and structure.

PROJECTS

2025 – Present

- Designed a class reminder application to help students track schedules and avoid missed classes
- Created wireframes and prototypes using Figma
- Structured user flows to simplify navigation and reduce confusion
- Applied basic usability principles such as consistency, hierarchy, and clarity

Personal Portfolio Website – 2025

- Built and deployed a personal UX portfolio using React to showcase case studies and projects
- Designed and implemented interactive UI components, including image carousels and animated cards
- Structured responsive layouts that adapt cleanly across desktop, tablet, and mobile
- Applied consistent typography and visual hierarchy to present work clearly and professionally
